Message

Pakistan is the fourth largest cotton producer, third largest consumer and second largest yarn exporter of the world. Cotton and textiles exports are backbone of the economy of Pakistan. Being cotton based economy, Pakistan aims to elevate its share in 600 billion US\$ value added global market, and is under inescapable obligation to re-orient its market strategy to provide competitive edge to its textile sector.

2. Dissemination of statistics in the above aspect is indeed a remarkable assignment that Directorate of Marketing & Economic Research of Pakistan Central Cotton Committee has been doing through its various publications. The Directorate of Marketing & Economic Research, makes availability of data and facts on all aspects of cotton and keeps update to the stakeholders in the country.

3. Collection of statistics is a scientific process whereas, presenting that data according to user's choice and need is an art, which needs special training and skills. Looking at the "COTISTICS" it seems that Directorate of Marketing & Economic Research of Pakistan Central Cotton Committee is blessed by that art. Dissemination of cotton data is of prime importance for policy formulators.

4. I am hopeful that this publication contains valuable information that can be utilized for academic, research, policy input quality/standards, decision making, investment and trade at local and global level.

(Hassan Iqbal)

Secretary

Special Edition for 75th Plenary Meeting of ICAC

Message

Statistics play pivotal role in decision making, effective planning, price determination and maintaining of strategic stocks. Collection of authentic data and dissemination in universally acceptable form in due course of time has always been a challenge. Collection of cotton related statistics is even more challenging task considering the diversity, complexity of cotton value chain and number of actors involved in its value chain. Pakistan Central Cotton Committee has been assigned the task of collection and dissemination of facts and figures regarding cotton production, utilization and market dynamics through its various periodical publications. Directorate of Marketing & Economic Research, an important component of PCCC is doing this job very efficiently, despite of limitations in human and other resources. The stakeholders' confidence on publications of this Directorate shows the information is reliable and timely available for policy makers, researchers and academia for better utilization.

COTISTICS, an Annual Cotton Statistical Bulletin is one of the key publications which covers cotton related national and international statistics, and this publication is used as reference data book. The Directorate of Marketing & Economic Research of PCCC has made the data handy available at www.pccc.gov.pk for the convenience of researchers.

The special edition of COTISTICS is designed for the 75th Plenary Meeting of ICAC, Islamabad, Pakistan, with improved tables and charts.

Minds and fingers behind COTISTICS deserves a special applaud for their un-interrupted publication for 44 years and determination to continue catering its stakeholders, through its valuable publications.

(Dr. Khalid Abdullah)

Vice-President, PCCC

Special Edition for 75th Plenary Meeting of ICAC

Foreword

Availability of accurate data and facts on cotton are pre-requisite for identifying main areas of research, determination of priorities and formulation of some research and extension programs. Being an important function of PCCC, the Directorate of Marketing & Economic Research has since its inception, accorded high priority on collection and compilation of data over the years and has increased the reliance of other organizations upon PCCC for regularly providing substantial information on all aspects of cotton production, marketing & trade. The Directorate of Marketing & Economic Research has been disseminating cotton statistics to the stakeholders through its regular publications. This imperatively needs disseminating the required information to all concerned in the form of a statistical bulletin namely "COTISTICS" which since its first appearance in 1971 has been rendering useful service and has earned commendation from public and private sector organizations.

"COTISTICS" is published annually and the coverage in this bulletin has expanded steadily. The main items include cotton area, production, yield, exports, imports, ginning, pressing, stocks, cotton products, prices and international statistics. The data in the tables are expressed in both English and Metric Systems and all time series are for the cotton season i.e. September to August, unless otherwise specified.

The Pakistan Central Cotton Committee is grateful to all Government, Semi-Government and Private Organizations and specially to the Federal Ministry of Textile Industry, Provincial Agriculture Departments, Pakistan Bureau of Statistics, Textile Commissioner's Organization, Karachi cotton association, Pakistan cotton ginners association, all Pakistan yarn merchants association, Karachi Grain and Seed Merchants' Group of various Market Committees for their help and support without which this publication would not have been possible.

The officers/staff of the Directorate of Marketing & Economic Research have been working very hard to accomplish this task. Their work is highly appreciable.

Dr Muhammad Ali Talpur

Director

Directorate of Marketing & Economic Research
Pakistan central cotton Committee, Multan

Special Edition for 75th Plenary Meeting of ICAC

HISTORY OF COTTON PRODUCTION IN PAKISTAN

Pakistan is the ancient home of cultivated cotton, excavated at Moen-jo-Daro in Sindh, Pakistan. The first indication of cotton use was found in sub-continent and dates back to 6000 B.C. Fragments of cotton cloth were found in Indus valley, so it is generally perceived that cotton was first cultivated in the Indus delta and its type was Asiatic (Desi) popularly known as "*Gossypium arboreum*". In 800 A.D Arab merchants brought cotton to Mesopotamia, Egypt and Europe. During 1500 A.D cotton fiber was generally known around the world.

Today, cotton is one of the valuable and extensively produced agricultural and industrial crop all over the world. It is being cultivated in more than 100 countries, covering around 2.5 percent arable land of the world. It is highest agricultural trading product and is being traded among more than 150 countries. More than 300 million families are engaged in cotton industry including secondary services like storage, transportation, ginning and baling.

Cotton being a cash crop is the mainstay of Pakistan's economy. It contributes about 1.5% to GDP and 6.7% to total value addition in agriculture. Pakistan is the 4th largest cotton producer, 3rd largest consumer of cotton and 2nd largest exporter of cotton yarn in world. Cotton is sown on an area of around 3.0 million hectares by more than 1.4 million farmers. Punjab is the main cotton producing province and accounts for 80% of total cotton area and 73% of total cotton production. Whereas, Sindh represents about 20% of cotton area and about 28% of production. Cotton production supports Pakistan's largest industrial sector, comprising some 450 textile mills, involving 40% of industrial labor.

COTTON GROWTH PATTERN IN PAKISTAN

Since independence of Pakistan in 1947, the production of cotton has risen steadily. The area increased from 1.23 million hectares in 1947 to 3.20 million hectares with concurrent production from 1.1 million bales to 13.95 million bales of 170 kg. This phenomenal growth in production is attributed to introduction of high yielding varieties having better fiber quality characteristics, heat tolerant, wider adaptability and introduction of improved cotton production technologies, across the cotton belt.

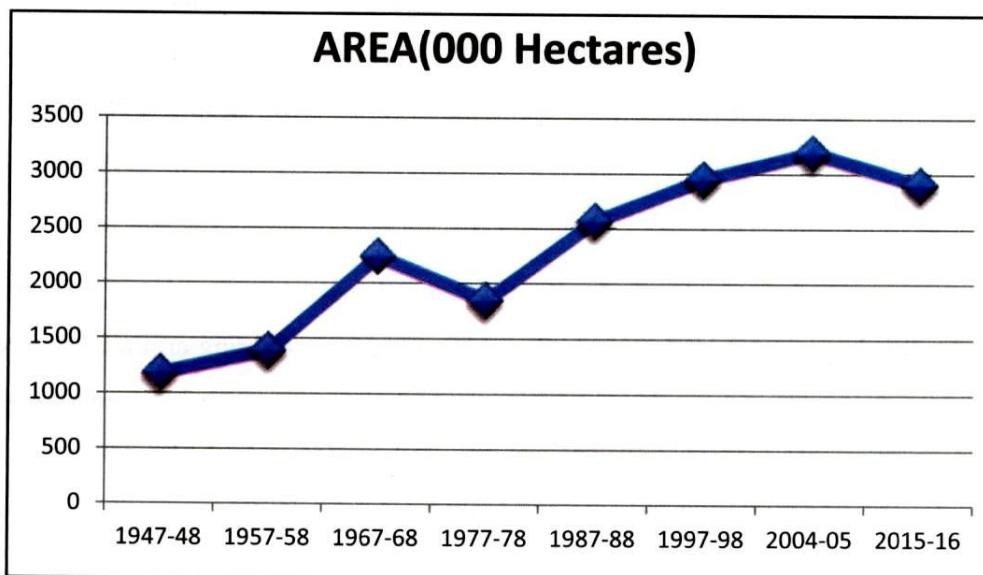

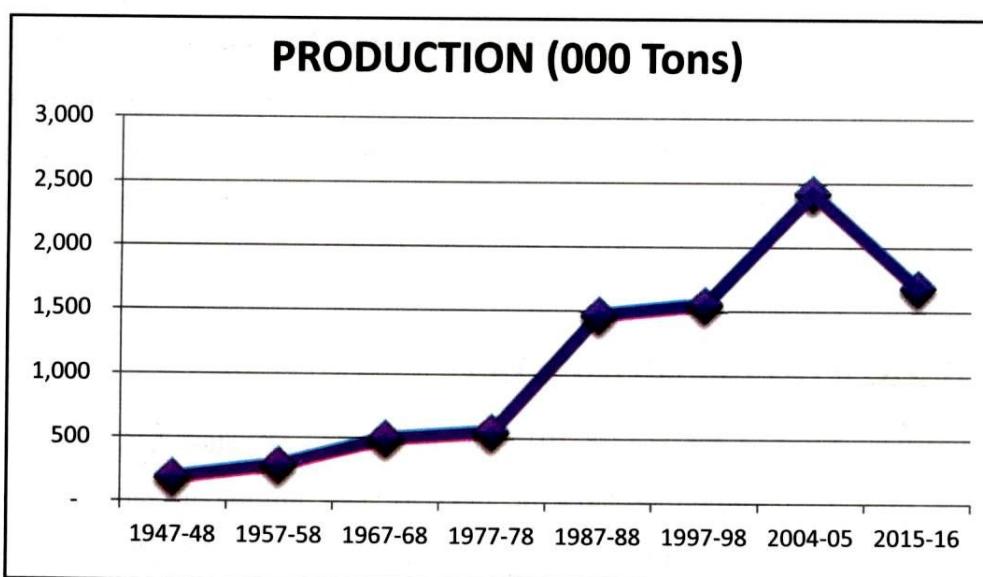

Figure II: COTTON PRODUCTION PATTERN IN PAKISTAN

Special Edition for 75th Plenary Meeting of ICAC

COTTON RESEARCH SETUP IN PAKISTAN

In Pakistan, research on cotton has been given prime importance and a number of organizations are conducting research on various aspects of cotton. Main organizations are:

- Pakistan Central Cotton Committee (PCCC).
- Centre of Excellence in Molecular Biology (CEMB) Punjab University Lahore.
- National Institute of Biotechnology & Genetic Engineering (NIBGE) Faisalabad.
- Nuclear Institute of Agriculture & Biology (NIAB), Pakistan Atomic Energy Commission, Faisalabad.
- Ayub Agricultural Research Institute, Faisalabad.
- Agricultural University Peshawar.
- Nuclear Institute of Agriculture (NIA) Tando Jam, Sindh.
- Department of Agriculture Research, Sindh.
- Sindh Agriculture University Tando Jam.
- Mohammad Nawaz Shareef University of Agriculture, Multan.
- Agriculture Policy Institute, Islamabad.
- Multinational & Private Sector Organizations.

To provide trained human resource to research organizations, six public sector agriculture universities and eight agriculture colleges offer basic and advance courses in agriculture and cotton. In addition, universities with strong biological sciences divisions help in training scientists on various aspects of cotton. The National Textile University and other engineering universities are producing textile engineers for the cotton value chain. These educational and degree awarding institutions have developed linkages with top ranking universities and schools across the globe to be the part of international research teams involved in cotton research.

Special Edition for 75th Plenary Meeting of ICAC

HISTORY OF COTTON VARIETIES EVOLVED IN PAKISTAN

Although Indus Valley is the home of cotton, yet the first variety of American cotton (4F) was released and grown on about 2000 acres in 1914. This was followed with the passage of time by numerous other varieties including 4F, 289F, etc, which formed the base for the introduction of American varieties in Sindh also, where the breeding work on cotton was intensified in 1926. After that research work on breeding of new varieties of both desi and American cottons had been going on in the country since the dawn of the 20th century.

TEXTILE INDUSTRY IN PAKISTAN

There are around 450 textile mills working in Pakistan. The installed capacity of spindles, Rotors and Looms are 13.269 million, 0.201 million and 0.0008 million, respectively. Along with raw cotton, a huge quantity of yarn is also exported from Pakistan. Pakistan produced 3.4 million tons of cotton yarn and 1.04 million sq. meters of cotton cloth in 2014-2015 and 3.3 million tons and 1.03 million sq. meters in 2013-2014 respectively. Pakistan exports cotton yarn more than 0.5 million tons every year and cotton cloth exports recorded more than 0.6 million sq meters every year. Despite of above mentioned commodities, Pakistan also exports raw cotton, bed wears, towels synthetic fiber, knit wear and readymade garments.

COTTON GINNING INDUSTRY

There are 1200 cotton ginning factories are in operation in Pakistan. The ginning industry operates in 80-120 saws type. However, the majority of ginning factories have saw gins of 90 saw blades type. The production capacity of ginning industry in Pakistan ranges from 12 million bales to 35 million bales. The Government is taking some serious steps to upgrade this sector of the industry. Establishment of cotton standards through Pakistan Cotton Standard Institute (PCSI), setting up of a Ginning Institute in public sector are positive steps towards the right direction.

Special Edition for 75th Plenary Meeting of ICAC

PAKISTAN CENTRAL COTTON COMMITTEE

INTRODUCTION

Pakistan Central Cotton Committee an apex cotton research body is contributing significantly by releasing new varieties within the set standards of fiber quality and country wide National Coordinated Varietal Trials. PCCC is catering the cotton requirement of the industry, exporters and other stakeholders by dissemination of data, documentation of cotton trade, pricing and policies at national and international level and Provision of technical support for planning of Cotton Policies at Federal Level. PCCC HQ's is located in Multan.

Special Edition for 75th Plenary Meeting of ICAC

PICTURES OF VARIETIES DEVELOPED BY CCRI, MULTAN & CCRI, SAKRAND

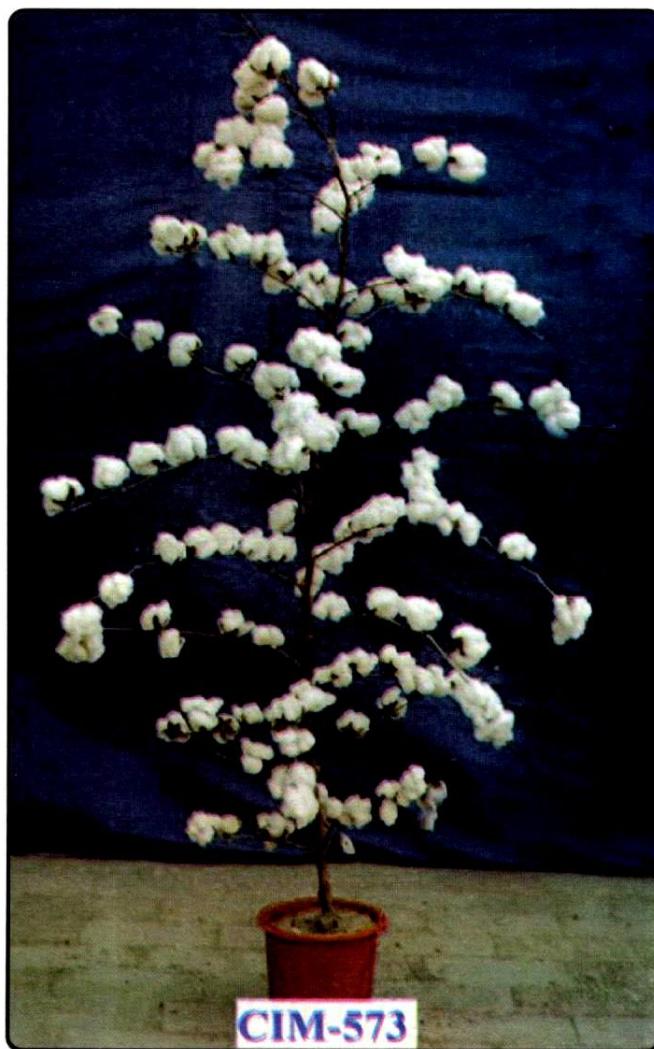

The fiber characteristics of these varieties are given a follows:

CRIS - 342

Year of Release	2010
G.O.T. (%)	38.5
Staple Length (mm)	28.4
Micronaire ($\mu\text{g inch}^{-1}$)	4.3
Fiber Strength (tppsi)	98.5

CIM-573

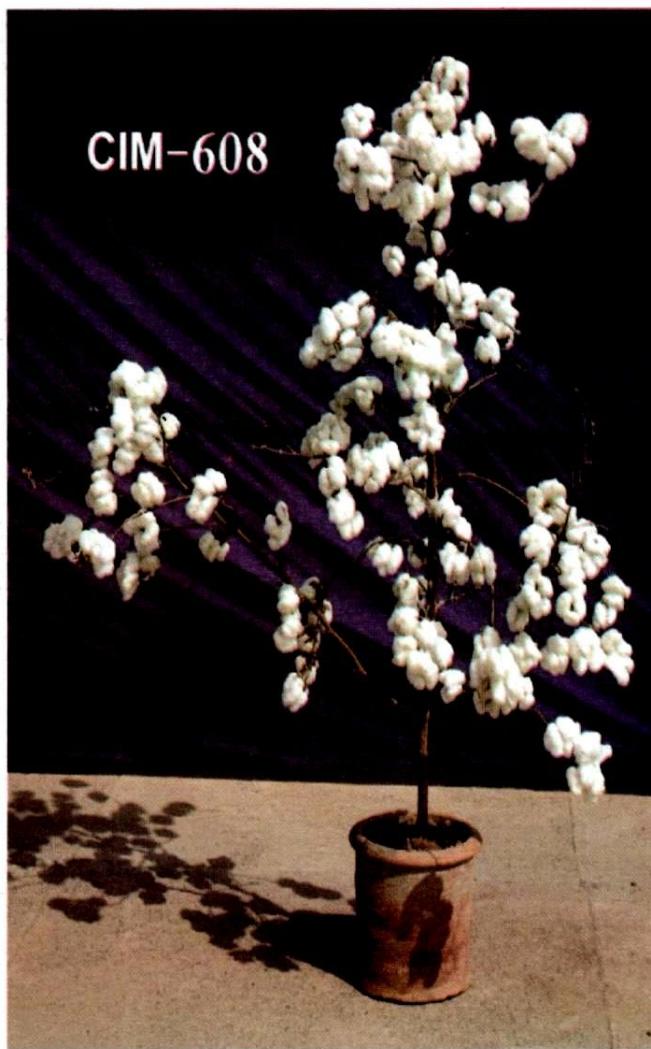

Year of Release	2012
G.O.T. (%)	39.9
Staple Length (mm)	31.0
Micronaire ($\mu\text{g inch}^{-1}$)	4.6
Fiber Strength (tppsi)	93.8

BT. CIM-599

Year of Release	2013
G.O.T. (%)	41.2
Staple Length (mm)	28.7
Micronaire ($\mu\text{g inch}^{-1}$)	4.4
Fiber Strength (tppsi)	93.8

CIM-608

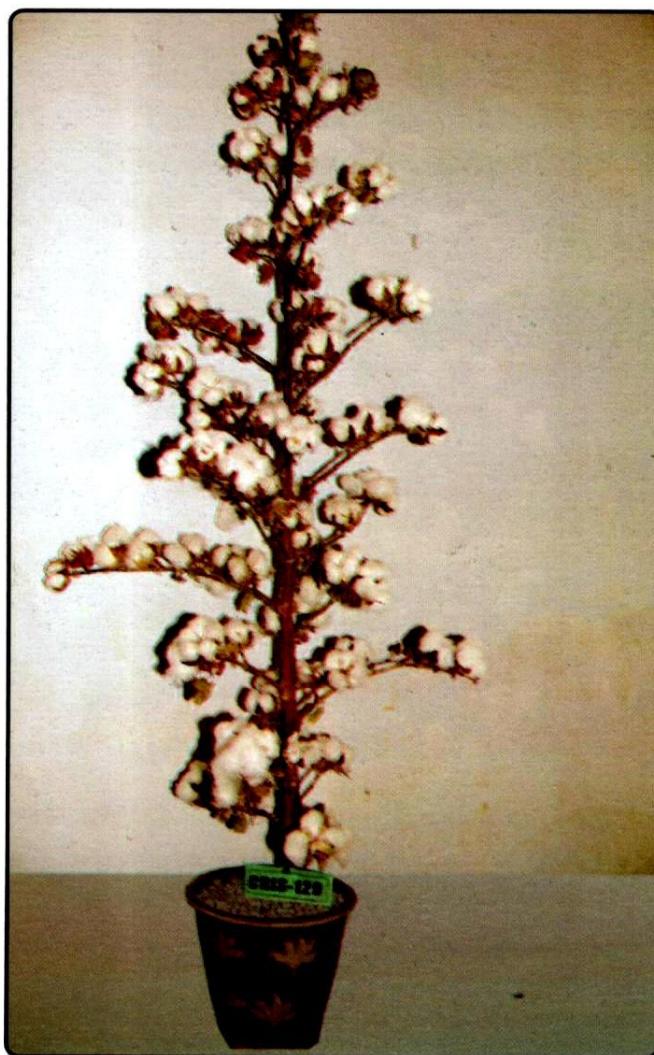

Year of Release	2013
G.O.T. (%)	41.1
Staple Length (mm)	28.5
Micronaire ($\mu\text{g inch}^{-1}$)	4.6
Fiber Strength (tppsi)	93.9

BT. CIM-602

Year of Release	2013
G.O.T. (%)	40.7
Staple Length (mm)	29.0
Micronaire ($\mu\text{g inch}^{-1}$)	4.3
Fiber Strength (tppsi)	95.0

CRIS-129

Year of Release	2014
G.O.T. (%)	38.5
Staple Length (mm)	28.5
Micronaire ($\mu\text{g inch}^{-1}$)	-
Fiber Strength (tppsi)	98.5

CYTO-124

Year of Release	2015
G.O.T. (%)	41.6
Staple Length (mm)	28.8
Micronaire ($\mu\text{g inch}^{-1}$)	4.6
Fibre Strength (tppsi)	100.0

CIM-620

Year of Release	2016
G.O.T. (%)	40.2
Staple Length (mm)	28.9
Micronaire ($\mu\text{g inch}^{-1}$)	4.6
Fiber Strength (tppsi)	93.0

Special Edition for 75th Plenary Meeting of ICAC

PCCC'S FOCUSED AREAS

- Develop high yielding, pest & virus resistant varieties.
- Evolution of long and extra-long staple cotton varieties.
- Development of CLCV resistant varieties.
- Development of commercial cotton hybrids.
- Development of Bt. Cotton.
- Technical support of Khyber Pakhtoon Khawa & Baluchistan governments for promotion of cotton cultivation.
- Strengthen technological testing and training facilities to benefit textile industry.
- Cotton Market investigations & economic research for policy feedback.
- Establishment of data bank.
- Cotton Research and Statistical Publications.
- National & International Coordination.

COTTON R&D FRAMEWORK

- Research planning through integrated approach.
- Linkage with national and international research institutes.
- Emphasis on biological control, biotechnology and virology.
- Human resource development.
- Promotion of cotton cultivation in Baluchistan and KPK.
- Streamline and strengthen technology transfer mechanism.

Special Edition for 75th Plenary Meeting of ICAC
